

Step 1:

Start off by doodling all the surfaces of the holder.

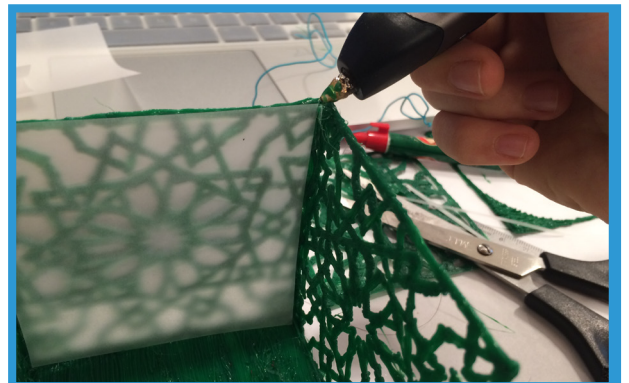

Step 2:

Attach the surfaces together by holding one side on a 90 degree angle and doodling on the inside.

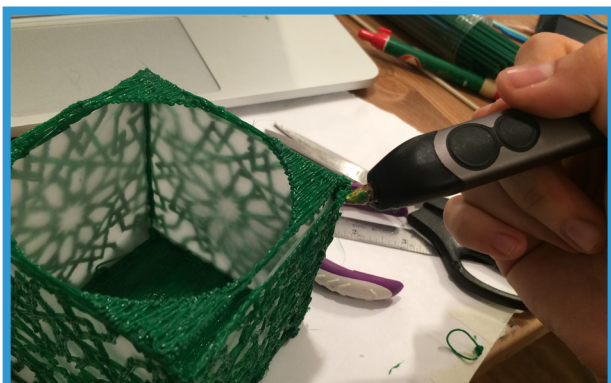

Step 3:

Repeat step 2 but with the base.

Step 4:

Cut out squares of tracing paper to fit each window and doodle on the corners to attach them.

Step 5:

Put on the top and doodle all the edges to seal the sides.

Step 6:

Add extra decorations accordingly.

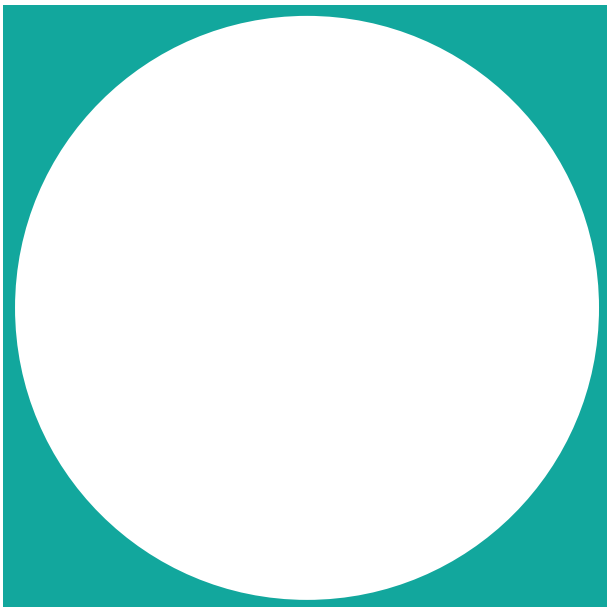

Final:

Decorate accordingly and customize your very own candle holder by choosing different color combinations.
